About us

Halol Experience Center

Polycab India Limited.

We're the leading name in India for wires and cables. We're everywhere you need us, with over 4,300 stores and 2,05,000 shops across India. Beyond that, our products are used in over 80+ countries. We're more than just wires. We have 28 manufacturing facilities across India, making the power that fuels your daily routine. We've got over 14 offices and 28 warehouses and depots to keep things running smoothly, so you get what you need, fast. We value substance, not just style. As a company with great business practices, you're our number one priority. Happy customers make us happy. Our 4,400+ amazing employees work hard to bring you the best quality and safest products that power your home. We like to give back to communities and protect the environment while we're at it.

No. 1

Manufacturer of cables and wires in India

SETTING GLOBAL BENCHMARKS IN MANUFACTURING

Since 1964, Polycab has been at the forefront of innovation, evolving from India's largest wires and cables manufacturer to a leading end-to-end electrical solutions brand.

Our extensive range of fans, including ceiling, table, pedestal, wall, exhaust, and farrata fans, are produced in state-of-the-art factories in Roorkee and Halol. Designed to exceed global standards, every Polycab fan delivers exceptional quality and performance.

Automated Copper Winding

- Fully automated process for guaranteed perfection.
- 99.999% pure copper in each heavy-duty winding.

Perfect Dimensions and Angles

- High-quality aluminium for fan blades, top, and bottom covers.
- CNC machines ensure precise dimensions.
- Optimal blade angles for higher air velocity and even distribution.

In-House BLDC Fan Manufacturing

- Specialized plant at Roorkee for superior quality and durability.

In-House Automated Air Delivery Testing Lab

- Rigorous testing for air delivery and distribution
- Ensures superior air delivery of 225 CMM to 280 CMM for every Polycab fan.

Automatic Robotic Paint Shop (Imported from ITW GEMA, Switzerland)

- Precise and uniform coating of fan parts
- Wide colour choices with high-grade laminated cover for surface protection.

Backward Integration

- Complete control over electronics manufacturing
- Reduces dependency on external vendors for PCB circuitries.

POLYCAB

SUPER ROI FANS

Super ROI Fans deliver exceptional value by combining energy efficiency, high performance, and stylish design. Powered by BLDC technology, they offer up to 50% energy savings* without compromising airflow. With sleek, modern designs and multiple colour options, these fans reduce costs, enhance comfort, and elevate your space.

Return on Technology

- Up to 50% energy and electricity bill savings.

Return on Product

- 100% copper-winding motor for optimal performance.
- Up to 4 years of warranty for peace of mind.
- More than 30 colours to match your preference.
- Modern designs to complement any décor.

Return on Performance

- 25% higher air delivery for instant relief.
- 25-speed settings to suit your precise requirements.
- Reverse rotation for enhanced comfort during winters.
- Breeze mode that replicates a natural airflow experience.

Scan the QR code for an immersive journey into the world of Super ROI Fans.

CHOOSING THE RIGHT FAN FOR YOUR SPACE

The right fan enhances airflow, comfort, and cooling. Let's simplify the selection process by matching the fan sweep size to your room:

Small Rooms (up to 50 sq. ft.)

- 600 mm (24 in.) sweep

Medium Rooms (70–80 sq. ft.)

- 900 mm (36 in.) sweep

Large Rooms (100–120 sq. ft.)

- 1200 mm (48 in.) sweep

Beyond Large Rooms (120–156 sq. ft.)

- 1400 mm (56 in.) sweep

For the best cooling experience, ensure proper fan height: keep the fan at least 7 feet above the floor for ceilings over 9 feet, add 6 inches to the downrod per extra foot of height.

Polycab Fans are engineered to deliver maximum airflow, ensuring every corner of your space stays refreshingly breezy.

Sweep size refers to the entire diameter of a fan.

BLDC MOTOR TECHNOLOGY

Our **BLDC (Brushless DC)** motors are energy-efficient, consume up to 65% less electricity compared to conventional fans, and offer a quieter, more reliable performance. BLDC fans are ideal for modern homes and offices where energy efficiency and low noise are top priorities.

Key Benefits of Polycab BLDC Fans:

High-Torque BLDC Motor: Enhanced durability and performance.

Energy Savings: Save up to 65% on electricity compared to regular ceiling fans.

Silent Operation: Thanks to aerodynamic blades and advanced motor design, our fans run quietly even at high speeds.

Longer Lifespan: With a 99.9% pure copper winding and double ball bearings, our BLDC motors have a longer lifespan and greater efficiency.

Why Choose Polycab's BLDC Fans?

BLDC (Brushless DC) technology has revolutionized the fan industry.

At Polycab, we've taken this technology to the next level with our **Eco-Drive BLDC motors**, offering superior performance, longevity, and energy savings.

BLDC SERIES

BLDC SERIES

Our BLDC Fan collection is built to save energy, operate in near silence, and enhance your decor. These fans are the perfect blend of form and function. Experience a breezy upgrade that's as smart as it is stylish.

MULTI-FAN PAIRING
Control multiple fans simultaneously

SLEEP MODE

An energy saving mode where the fan reduces speed every one hour, and continues working at its lowest speed

BREEZE MODE

Experience the feeling of natural breeze simulated by the fan alternating between low to high speed rapidly, mimicking the outdoors

REVERSE ROTATION

The fan starts rotating in reverse direction to circulate air gently without a blast

25 SPEED SETTINGS

Increase or decrease the speed accurately, according to your comfort

BOOST MODE

One button press for full speed and maximum airflow

FORWARD ROTATION

The fan starts rotating in forward direction for powerful airflow

BOOST ++ MODE

One button press for full speed and maximum airflow

*Remote color may vary.

POLYCAB

LIGHTING

Innovative Lighting for Brighter Living

Polycab Lighting is redefining modern illumination with innovative solutions that bring brighter living to every space. Our extensive range combines state-of-the-art LED technology with sleek contemporary design, offering exceptional brightness and energy efficiency. From creating warm, inviting ambiances at home to delivering precision lighting in offices and industrial spaces, our products are designed for both aesthetics and functionality. From ambient fixtures that create a warm, inviting atmosphere in homes to powerful, precision lighting systems that enhance productivity in offices and industrial spaces, our solutions are engineered to meet the evolving demands of modern living.

Quality and durability lie at the heart of our mission. We continually integrate the latest technological advancements and design trends into our products, allowing us to offer not only cutting-edge performance but also environmentally responsible solutions. This commitment to quality and innovation ensures that every ray of light from Polycab Lighting is a step towards a smarter, more sustainable future. Choose Polycab Lighting to illuminate your surroundings with elegance, efficiency, and a promise of enduring brilliance—because every space deserves to shine brighter.

POLYCAB

SWITCHES

Switch on the Wow

Polycab redefines modern living with its innovative switch solutions, combining style, safety, and seamless functionality. With an extensive collection under three distinct ranges—Etira, Fabelle, and Levana—Polycab offers switches designed to elevate every space. Whether it's the minimalistic elegance or the luxurious appeal, the range embodies superior craftsmanship, durability, and aesthetic finesse. Built with cutting-edge technology and premium materials, Polycab switches ensure reliability, long life, and a refined touch to any interior. Designed for modern homes and commercial spaces, they blend sophistication with performance, making every interaction effortless and enhancing everyday living.

Features:
Assured Safety, 1 Lac+ Clicks, Aesthetically Designed, Soft Click Switches,
Precision Engineering, Vertical & Horizontal Orientation.

POLYCAB

SWITCHGEARS

Assurance of a Safe Life

Polycab Switchgear embodies a commitment to safety, reliability, and innovation, ensuring seamless electrical protection for homes, businesses, and industries. With a diverse portfolio of meticulously engineered solutions—including MCBs, RCCBs, Isolators, and Distribution Boards—Polycab safeguards electrical circuits against overloads, short circuits, and leakages. Designed for effortless installation and robust performance, each product is rigorously tested beyond industry standards to deliver uncompromised safety and longevity. Whether for residential, commercial, or industrial applications, Polycab Switchgear blends precision with peace of mind, reinforcing its promise of quality and protection in every connection.

Features:

Assured Safety, 7 Years Warranty and Flame Retardant Body.

POLYCAB

WIRES

Your Connection to a Safer Future

Polycab Wires are designed for exceptional durability and safety, setting the standard for electrical wiring. With a commitment to innovation and quality, Polycab ensures long-lasting performance, making it the preferred choice across residential, commercial, and industrial sectors. The brand offers products under names like **PolycabMaxima+ Green Wires**, **PolycabSuprema with E-Beam Technology**, **PolycabOptima+**, **PolycabPrimma**, and **Etira by Polycab**, each guaranteeing superior safety, eco-friendliness, and durability compared to standard wires.

- **Superior Quality Materials:** Polycab uses 99.97% pure copper conductors for optimal conductivity and minimal power loss, along with high-quality PVC insulation that resists heat, chemicals, and abrasion.
- **Enhanced Safety Features:** Polycab wires are designed to prevent fire spread, emitting minimal smoke and toxic gases, thus safeguarding lives and property.
- **Long-Lasting Performance:** Built to withstand harsh conditions, Polycab wires require less frequent replacement and maintenance.
- **Global Compliance:** Meeting International standards like RoHS, REACG and amp; BIS standards, Polycab wires offer reliable, worldwide safety and quality.
- **Eco-Friendly Manufacturing:** Polycab is committed to sustainability, using eco-friendly processes and materials in wire production.
